

A PROCESS FOR PRODUCTION OF CARDS WITH IMAGES AND RELATIVE IMAGE CARD

ABSTRACT

A process for the production of image cards comprising the following steps: printing of a sheet (1) so as to obtain a printed sheet (1a) with a plurality of images (3) disposed in a plurality of windows (30), overprinting of decorations (43) on said image windows (3), deposition of a protective layer (50) on said decorations (43) so as to fix them and avoid removal of the material from the decorations and punching of said printed sheet (1a) so as to obtain a punched sheet (1d) with microperforations (63) along the perimeter of said windows (30) containing the image (3).
